

We are a fourth generation family owned business and as a general building contractor, we have been providing the insurance industry with full service on property damage claims for over 30 years.

We provide full services for any type of construction ranging from residential to commercial to industrial. We are fully capable of providing on-site project management for new construction or renovations being performed, to ensure proper cost control and that scheduling is met.

With our own personnel, we can perform any renovation big or small. Our experienced staff have performed many tasks in their careers, from installing concrete foundation to installing a roof.

A.L. Gullison DKI is certified with IICRC, *Institute of Inspection Cleaning and Restoration Certification*, and has pledged to implement an advanced training program and a course of study leading to the certification of all On-Location Operations actively engaged in providing services to the consumer in cleaning and restoration. A.L. Gullison DKI has also pledged its support in establishing and maintaining a professional attitude in the conduct of its daily business at all times and to provide the consumer with the highest degree of professionalism possible.
