

Water and Flood damage are caused by many different situations. When water damage occurs an immediate response is required to remediate the situation. A.L. Gullison DKI is there for you in those times of need.

Upon our arrival, we'll clean up and secure your property and complete only those tasks necessary to mitigate damage. We will help guide you through the process of contacting your insurance company. We'll evaluate the extent of damage and will explain the restoration services that will be required. We will also provide you with an estimate of the costs and we'll begin the restoration process as soon as possible.

Our professional team of cleanup, recovery and restoration experts is certified by the IICRC (Institute of Inspection Cleaning and Restoration Certification), having successfully completed specialized training in the field of restoration and recovery.

We employ the latest equipment, products and technology and constantly update our knowledge and skills through a program of ongoing training and recertification.
