Water Damage

"We were originally referred to a different company, but after their initial visit, we were not comfortable with their service and decided to go with A.L. Gullison DKI. We felt very comfortable with them in our home and they provided it us with FANTASTIC service. Tim and his team were excellent! Thank you very much."

Water Damage

"Despite the emotional turmoil associated with a flooded basement, the professionals at A.L. Gullison made it a remarkably easy period of clean-up and transition. Their prompt response to our service calls reinforced we were in excellent hands. Customer service was first rate, and Derek himself became personally involved in overseeing every aspect of both the water remediation and subsequent home renovation. An excellent experience with a bad situation made possible by this great team...would highly recommend them to anyone"

Water Damage/Apartement Complex

"Very few companies could measure up to A.L. Gullison DKI, LTD. We did not have to chase our contractor to either have questions answered or to figure out what the workers were supposed to be doing. We would recommend Mr. Gullison's company without concern and without hesitation. Thank you, to all of the team: The workers on site, the office employees, Cole and Larry. Thank you for showing us what real professionals do in the face of disaster."
